## Staging Rack for Work-in-Process

--- Also available in double or triple tower configurations ---

Have you considered improving the organization throughout your manufacturing processes? Is there opportunity to streamline your work flow? In addition to those two opportunities, we also want to help you and your company use vertical space efficiently, create visible and mobile "next job" staging areas, and reduce the stress of your shop environment. Ask us for more information today! Standard or custom products, we're here to help you become more efficient and profitable. It's fun to simultaneously create job security, reduce stress, eliminate waste, and be more profitable.
